## About North Country Gold:

North Country Gold Corp. (TSX VENTURE:NCG) is 100% owner of the mineral rights to 557,323 acres (225,569 hectares) of land comprising 216 active mineral claims and 14 mineral leases on the gold-rich Committee Bay Greenstone Belt in Canada's Nunavut Territory. Management has identified numerous high-grade gold targets within five distinct mineral development centers on the Belt and is focusing on advancement of the Three Bluffs centre and its deposit, which is located approximately 300 kilometres northeast of the new Meadowbank Mine near Baker Lake.

Three Bluffs is a NI 43-101 compliant high-grade gold deposit, which currently hosts an indicated resource of 508,000 ounces (2,700,000 tones at 5.85 g/t Au) and an additional inferred resource of 244,000 ounces (1,270,000 tones at 5.98 g/t Au). The deposit is open to depth and there is significant potential to expand the current resource along strike. The 2011 program will follow-up on the outstanding results of the 2010 drilling program and continue to explore for additional mineralization proximal to the existing resource.
