## About Kria Resources Ltd.

Kria Resources is a base metal exploration and development company focused on high-quality, advanced-stage base metal assets. Kria's primary asset is the Halfmile Lake and Stratmat properties near Bathurst, New Brunswick. The Halfmile Lake and Stratmat projects are optioned by Kria from Xstrata, which is currently the largest shareholder of Kria.

Kria completed a preliminary economic assessment ("PEA") on its Halfmile Lake project in September 2010 that indicated the project's economics improve if the mineral resource from Kria's nearby Stratmat property is combined with the mineral resource from Halfmile Lake. The combined Halfmile/Stratmat PEA estimated a pre-tax NPV of C\$824 million (0% discount rate) and IRR of over 20% based on metal prices of US\$1.03/lb Zn, US\$3.03/lb Cu, US\$0.92/lb Pb and US\$15.08/oz Ag.

Please refer to the Company's technical reports filed on SEDAR for details regarding the NI 43-101 compliant resource estimates on Halfmile, Stratmat and Ruttan. Prices and other assumptions mentioned in this press release are Kria's internal assumptions and estimates. Additional information is available at [www.kriaresources.com](#).
