

Sydney Mining Club Present Exeter Resource Corporation and Extorre Gold Mines at The 152nd Sydney Mining Club

21.01.2011 | [ABN Newswire](#)

Sydney - Bryce Roxburgh, President of [Exeter Resource Corporation](#) (TSE: XRC) and Yale Simpson, Chairman of [Extorre Gold Mines](#) (TSE: XRC) present on successful exploration work in Chile and Argentina.

Both companies are TSX listed and Extorre was spun out of Exeter in mid-2010 to allow specific country and project focus so that competing pressures were minimized.

Exeter's key project is the giant gold-copper Caspiche porphyry project in the Maricunga district in northern Chile, which contains a gold equivalent resource of 45 million ounces in a tonnage in excess of 1.3 billion tonnes.

Extorre is an emerging gold - silver producer with its flagship project Cerro Morro containing a resource in excess of 600,000 ounces gold equivalent and stacks of upside.

Two excellent case studies on doing business in South America - not to be missed!

About Exeter Resource Corporation:

Exeter Resource Corporation (TSE: XRX) (AMEX: XRA), with a treasury of \$90 million, is a Canadian mineral exploration company focused on the exploration and development of the Caspiche project in Chile.

Exeter has the rights to 100% of the Caspiche project which is situated in the Maricunga gold district, between the Refugio mine (Kinross Gold Corp.) and the giant Cerro Casale gold deposit (Barrick Gold Corp. and Kinross Gold Corp.). The discovery represents one of the largest mineral discoveries made in Chile in recent years. Exeter recently initiated pre-feasibility studies with the aim of demonstrating the commercial viability of this world class discovery.

About Sydney Mining Club:

The first Sydney Mining Club forum was held in March 1997.

The initial impetus for the formation of the Sydney club was discontent in the mining community with many aspects of the professional institutes and most of all with their ability to bring people together. Our activism led to the first changes to the constitution of the largest Institute in more than a century.

About Extorre Gold Mines:

Extorre Gold Mines Limited (TSE: XG) (PINK: EXGMF) is a Canadian public company listed on the Toronto Stock Exchange (TSX) under the symbol XG and the OTCQX in the United States under the symbol EXGMF. Extorre is a spin-out from Exeter Resource Corporation, a transaction that facilitated taking the high grade Cerro Moro Project to a mine development decision in 2010.
